THE COLLEGE EMBLEM

Asato Maa Sad Gamaya

Tamaso Maa Jyotir-Gamaya

Mrtyor-Maa Amrtam Gamaya (Brihadaranyaka Upanishads, 1.3.28)

The Indian prayer of Tamaso Maa Jyotir-Gamaya, (Lead me from the darkness to light) which is known as the “santhi mantra” in the Vedic and Upanishadic tradition, is the core of the message of the emblem of Yuvakshetra Institute of Management Studies. “Ignorance is darkness and erudition is light”. The name *Yuvakshetra* is the combination of two Sanskrit words ‘yuva’ and ‘kshetra’. The word yuva means youth or a young human being and kshetra means a holy place or a gathering place. So the name *Yuvakshetra* signifies a holy gathering place of the young people. The book signifies three exposures; First and foremost it stands for the Holy Bible which is the source of eternal wisdom and in the second part the book stands for all the written works of wisdom and knowledge in the world and in the third part it means the book of life of each teacher from which the students learn many things. There are two flames coming from the book of wisdom; one is big and the other is small. The big flame stands for the infinite, eternal and perennial wisdom that comes from God and the small flame stands for the finite wisdom and knowledge that human being acquire through their hard work and studies. The big flame also stands for the teachers who enlighten the students and the small flame stands for the students who are enlightened through the teaching of the teachers. On either sides of the flame there are two towers that signify the tower of Confidence and the tower of Perseverance. It means that the wisdom and knowledge become enriched only in the context of confidence and perseverance.

The motto “Inform and form to transform” throws light into the very existence of Yuvakshetra. The knowledge we impart to the students about the natural and supernatural values and ethical principles together with the curriculum shape the physical, emotional, spiritual, social, intellectual and curricular dimensions along with their mind, intellect, behavior and professional personality. Thus we try to transform them to be better citizens, job candidates, persons of values, and lovers of nature. The radiance of rays shown in the emblem indicates that a person transformed in such a way envisaged by Yuvakshetra Institute of Management Studies will carry out light around him in the society. Imbibing the words of Jesus who said “I am the light of the world” (Jn. 8, 12), the students who are enlightened with the spiritual and secular wisdom, become capable of enlightening the world in and around.

COLLEGE AT A GLANCE

Yuvakshetra Institute of Management Studies (YIMS), one of the accomplishments of Yuvakshetra Charitable Trust, is a Premier professional Training Institute in Palakkad District and one of the best of its kind in South India. The Sanskrit word '*KSHETRA*' means the Gathering place / Holy place. 'Yuvakshetra' represents the gathering place of young people where they are molded after professionalism, discipline and holistic development. The institute is unique in its approach towards professionalism, whereby even those from the lower economic strata get a platform to forge their skills and potentials. Unsurprisingly, this is the first college in Palakkad that offers a regular degree in Hotel Management from a University based in Kerala.

YIMS: A BRIEF HISTORY

Yuvakshetra Institute of Management Studies (YIMS) is a project of the Diocese of Palghat. YIMS was launched in 2005 under the visionary leadership of Rev. Fr. Sebastian Panjikkaran, the founder Director of Yuvakshetra. Yuvakshetra Institute of Management Studies (YIMS) was formally inaugurated on December 9th 2004 and the classes commenced from June 2005. At its inception, Yuvakshetra was just a vocational training institute. Now, YIMS is affiliated to the University of Calicut. Within a short span of time, YIMS has emerged as one of the premier higher education centres in Kerala. It has also attained the status of a “Centre of Excellence”. Presently there are 10 Departments with 14 UG Courses and 4 PG Courses.

SCOPE

YIMS has multitudinal scope. In an ever expanding world of knowledge, professionalism demands constant improvement in quality and competence. YIMS tries to expand its horizon, maintaining exemplary standards in higher education, to equip the students to face all the educational, cultural, global and all other types of challenges.

VISION

A centre of holistic excellence to provide the students quality and value-added education to meet the challenges of tomorrow through the development of intellectual and professional competence to successfully cope with the changing world scenario as better citizens, lovers of nature and human beings of values.

MISSION

To mould the students as professionals with skills, knowledge and wisdom to be successful in the ever-changing world of science, business, industry and service with the thrust of character formation through intellectual, interpersonal, employable and value-based education in a Christian atmosphere based on Constitutional values.

GOAL AND OBJECTIVES

The primary aim of the College is to provide university education in a Christian atmosphere. The college plays a vital role in bringing desired changes in students for the betterment of the people of our country. The College fosters an atmosphere of intellectual vigour and moral soundness in which the young men and women of our country may find their fulfillment and achieve greatness. It further helps the students in their integral development and makes them mature and responsible individuals. We strive to cultivate a sense of social and civic responsibility in our students, thus empowering them to serve the humanity and the country.

MOTTO

“Inform and form to transform”

YIMS aims at “the intellectual, moral, human etc. formation of students”. The College focuses on the integral development of each student. Other than subjects of curriculum, we try to inform the students about ethics, values, behavior etc. Our aim is to form the mind, intellect, behavior and personality.

PLEDGE

India is my country. All Indians are my brothers and sisters. I love my country and I am proud of its rich and varied heritage. I shall always strive to be worthy of it. I shall give my parents, teachers and all elders respect and treat everyone with courtesy. To my country and to my people, I pledge my devotion. In their well-being and prosperity alone lies my happiness.

PRAYER OF ST. FRANCIS OF ASSISI

Lord, make me an instrument of your peace.

Where there is hatred, let me sow your love;

Where there is injury, pardon;

Where there is doubt, faith;

Where there is despair, hope;

Where there is darkness, light;

and Where there is sadness, joy.

O Divine Master,

Grant that I may not so much seek to be consoled as to console;

To be understood as to understand, to be loved as to love.

For it is in giving that we receive

It is in pardoning that we are pardoned,

And it is in dying that we are born to eternal life.

Amen.

COLLEGE ANTHEM

We come together to seek and find,
To plant, to nurture, to mould and to build,
The seeds of knowledge and the spirit of life,
Herein these fields and the world beyond.
Ch: And So let's arise,
Awake and strive to achieve,
The unseen and the undreamt till this day,
Something new and different, pioneering and bold
To change our lives and of the ones around.
We pledge to learn and discover together,
Exploring new vistas, making innovations, To
create with integrity illumine with wisdom Being
loyal and committed to all around.

UNIVERSAL PRAYER

Our Father in heaven
Hallowed be thy name.
Thy Kingdom come.
Thy will be done
on earth as it is in heaven.
Give us this day our daily bread,
and forgive us our trespasses,
as we forgive those who trespass against us,
and lead us not into the temptation,
but deliver us from evil.
Amen.

PRAYER SONG

There shall be showers of blessings:
This is the promise of love;
There shall be seasons refreshing,
Sent from the Saviour above.
Showers of blessings,
Showers of Blessings we need;
Mercy drops round us are falling,
But for the showers we plead.
There shall be showers of blessing;
Send them up on us, O Lord;
Grant to us now a refreshing,
Come, an' now honour thy Word.
There shall be showers of blessing;
Send them upon us, O Lord;
Grant to us now a refreshing,
Come, and now honour thy Word

Different Committee/Cells/Coordinators

1. YIMS Internal Quality Assurance Cell (IQAC)

Quality Sustenance and Quality Enhancement are the two key words reverberating in most higher education institutions. YIMS IQAC is a committee that is associated with NAAC which is an autonomous body funded by UGC, Government of India, MHRD headquartered in Bangalore that assesses and accredits the institution. It insists that the institution should establish an Internal Quality Assurance Cell (IQAC) as a 'Post Accreditation Quality Sustenance' measure and should exercise long term objectives and in this context, NAAC pushes the institution to encompass a 'Proactive and Functional IQAC' in its system. IQAC conducts academic audits to ensure the quality of teaching and learning process in the college.

Language, being skill oriented, can be learned only by practicing the four skills: of listening, speaking, reading and writing. In Yuvakshetra Institute of Management Studies, the PG Department of English caters to this need of the students through various activities. The basic structure of the language is imparted to the students through the language development programme of the college. Based on the academic need, extension lectures are arranged. The creative sensibility of the students is ignited by giving exposure to distinctive literary and linguistic experiences within the coherent curriculum framework. In order to update the recent advancement in the research field, the department gives importance to seminars and symposia. We encourage our students to prepare the same in national and international seminars.

VISION

- To enable the acquisition of language skills in students, equipping them to meet the challenges of language learning and cross-cultural communication.
- To encourage students are encouraged to develop love for language and literature, instilling in them positive attitudes towards linguistic and cultural diversity.
- To inculcate social and cultural values that provides the student community with a global perspective, thereby moulding them as responsible and informed citizens.

MISSION

- To equip the students to attain essential linguistic competency with the help of the curriculum framework provided.
- To get students introduced to the world of literature and strengthen their critical sensibilities in order to analyze various forms of literary expressions.

PROGRAMME OUTCOME

- Students acquire the much-needed language proficiency which helps them meet the communicative requisites of the day, helping them emerge as global citizens.
- The curriculum fosters right attitudes and values in students which promote effective thinking and critical reasoning.
- Ample opportunities are provided to diverse student population to acquire a holistic understanding of human life with glimpses into world literature.
- The curriculum helps the students in nurturing human values, broadening the minds of students, thus contributing to social and communal well being.

SPECIFIC OUTCOME

- Students gain linguistic expertise and communicative competency that help them succeed in today's global scenarios.
- Literary Perspective: Students are encouraged to foster an inquisitive and analytical mindset through exposure to literary works and critical/theoretical schools.
- Humanistic Perspective: Students are encouraged to overcome parochial and conservative thinking and help build a more inclusive society

Computer Science is the heart of many new technologies. Along with the degree, Yuvakshetra offers the students a chance to be involved in developing technology. The department has been continuously engaged in planning and implementing various kinds of education development activities for the pursuit of academic excellence with an eye towards the needs of the

society, industries and the nation. Reflecting our commitment to learner improvement, the department of computer science encourages students to be creative, analytical and critical in the questioning of ideas, pursuit of knowledge and exploration of new interests. We support students to achieve the very best outcomes, that they may receive the highest quality of academic education, the broadest student experiences and the right extracurricular opportunities to find their place in the world. The Department is committed in generating, disseminating, and preserving knowledge, and to work with others to bring the knowledge to bear on the world's great challenges. We seek to develop students with the ability and passion to work wisely, creatively, and effectively for the betterment of human kind. Earning a graduate degree in Computer Science can lead to positions in research institutions, government agencies, technology companies, universities, consulting firms, manufacturing companies and financial corporations.

VISION

To create computer professionals with a strong academic and technical background to achieve special distinction at the national and international arena and also to serve and lead the society. To step into a premier technological and research institution, moulding eminent professionals with creative and committed minds with sound practical skill, and to contribute a future where technology works for the enrichment of nation.

MISSION

Providing excellent learning platforms for students in Computer Science to meet the needs of various technological disciplines and to inculcate in them a high degree of social consciousness and human values by developing ICT based solutions to face the challenges of life with courage and conviction.

B.C.A

PROGRAMME PROGRAMME OUTCOME

The basic objective of the Programme is to open a channel of admission for computing courses for students, who have done the Plus two and are Interested in taking computing/IT as a career. After acquiring the Bachelor's Degree (BCA) at University of Calicut, there is further educational opportunity to go for an MCA or other Masters Programme like MSc (Computer Science), MSc (IT), MBA, etc., at this university or at any other University/Institute. Also after completing the BCA Programme, a student should be able to get entry level job in the field of Information Technology or ITES or they can take up self-employment in Indian & global software market.

SPECIFIC OUTCOME

The specific objectives of the Programme include

- To attract young minds to the potentially rich and employable field of computer applications.
- To be a foundation graduate Programme, this will act as a feeder course for higher studies in the area of Computer Science/Applications.
- To develop skills in software development so as to enable the BCA graduates to take up self-employment in Indian and global software market.
- To train and equip the students to meet the requirements of the software industry in the country and outside.

Geography is the study of places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it. They also examine how human culture interacts with the natural environment and the way that location and places can have an impact on people. Geography seeks to understand where things are found, why they are there, and how they develop and change over time. Geography has been called "the world Discipline" and "the bridge" between human and physical sciences. Specialists in geographic techniques study the ways in which geographic processes can be analyzed and represented using different methods and technologies. Now, there are many satellites and other above-Earth vehicles that help geographers figure out what the surface of the planet looks like and how it is changing. Department of Geography offers PG and UG Programmes (M.Sc & B.Sc Geography) several career options with numerous specializations. Depending on their area of specialization, geographers may be employed as forest managers or in agricultural or economic institutes or as demographers in government and research organizations. A geography background is also an asset for careers in travel and tourism, particularly for Travel Journalism. You can also be employed as climatologists, geomorphologists, GIS specialists, and hydrologists.

VISION

The Department of Geography will continue to stress both theoretical and applied realms in all of our degree programs. We will provide a rigorous educational experience through innovative teaching, engagement with the community, and dedication to our students and alumni. We will increase our visibility as a research department through faculty scholarship, research grant activities, international collaborations, the recruiting of top students for our degree programs, the organization of national and international conference and symposia, a robust program of scholarly exchanges, and service in academic and professional organizations.

MISSION

- The mission of the Department of Geography is to provide its students with educational experiences of the highest quality, to conduct vital research that benefits society, and to serve our communities, from the local to the international. We are committed to outstanding teaching activities within the framework of academic freedom, the diversity of people and ideas, a spirit of inclusiveness, and a global perspective.
- The department's mission is to provide comprehensive higher educational knowledge, and workforce training programme and services of superior quality that meet individual, business, and community needs by:
- Offering comprehensive and enriched practical sessions for graduate and Post graduate programs; through extensive field work in the Palghat gap region includes the Physical and cultural features.
- Encouraging and strengthening the utilization of a broad range of technologies, methods, materials, and facilities, within instructional and support services that accommodate students of diverse backgrounds, interests, and abilities; Creating an environment that facilitates learning through a curriculum that broadens perspectives, leads to responsible citizenship, and sets standards that support the highest level of performances.

PROGRAMME OUTCOME

- A Geography degree provides you with the knowledge and skills you need to begin a variety of rewarding careers. Geographers work as urban planners, GIS technicians and analysts, disaster preparedness planners, teachers, environmental scientists, remote sensing analysts, transportation planners, demographers, hydrologists and in a variety of other areas.

- Ability of Problem Analysis: Student will be able to try to find out the possible measures to solve those problems.
- Conduct Social Survey Project: They will be eligible for conducting social survey project, which is needed for measuring the status of development of a particular group or section of the society.
- Individual and Teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- Application of Modern Instruments: Students will be able to learn the application of various modern instruments and by these; they will be able to collect primary data.
- Application of GIS and Modern Geographical Map Making Techniques: They will learn how to prepare map based on GIS by using the modern geographical map- making techniques.
- Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions from different perspectives.
- Development of Observation Power: As a student of Geography Course, they will be capable to develop their observation power through field experience and in future, they will be able to identify the socio- environmental problems of a locality.
- Self-Directed and Life-Long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context social, environmental and technological changes

SPECIFIC OUTCOME:

- Student will gain the knowledge of Physical Geography. Student will have a general understanding about the geomorphological and geotechnical process and formation.
- They will be able to correlate the knowledge of Physical Geography with the Human Geography.
- They will be able to acquire the knowledge of Human Geography and will correlate it with their practical life.

After the completion of the project they will be efficient in their communication skill as well as power of social interaction. Some of the students are being able to understand and write effective reports and design credentials, make effective demonstrations and give and receive clear instructions

According to the American Psychological Association “Psychology is the scientific study of the mind and behavior” It is a multifaceted discipline and includes many sub-fields of study such as human development, sports psychology, health psychology, behavioral neuroscience, cognitive psychology, clinical psychology, forensic psychology and industrial-organizational psychology. Psychologists play a vital role in healthcare by caring for individuals experiencing mental health

issues, performing psychotherapy, investigating treatment options, and teaching patients how to manage their symptoms effectively. Psychologists are employed in hospitals, mental health clinics, schools, colleges, universities, government agencies, private businesses, and private practices. They perform a wide variety of tasks and roles ranging from treating mental illness to performing research to influence public health policy.

B.Sc. Psychology or Bachelor of Science in Psychology is an undergraduate Psychology Programme. The duration of B.Sc. Psychology is for three years and the syllabus for the course is divided into six semesters. The course is an important and career originating in nature that provides many job opportunities to the candidates after its completion. A degree in Psychology from YIMS provides intellectual training suitable for a wide range of occupations, and our graduates have achieved success in fields such as business, academia, medicine, clinical psychology, gerontology, social work, marketing, public relations and much more. Approximately 80% of our graduates, pursue postgraduate education in various fields, including not only psychology, but also human resources, nursing, public health, occupational and physical therapy and public policy. **M.Sc. Psychology or Master of Science in Psychology** is a postgraduate Psychology Programme. The duration of M.Sc. Psychology is for two years and the syllabus for the course is divided into four semesters. In a changing and challenging new era, application of research in psychological principles to deal with, manage and solve human and environmental issues has acquired new dimensions. By giving insight into the behavior and thoughts of individuals, groups and the environmental factors as a discipline, this Post Graduate programme is covering many areas and theories. Shaping social and cultural concerns of individuals, groups and collectives with a deep sense of rootedness in our own culture, with a global outlook could be considered as a critical goal of higher education in social sciences in general, and psychology in particular.

VISION

To make significant contributions to the science and practice of Psychology, and to produce professionals who serve the Local, National, and Global Communities.

MISSION

To teach Psychology to undergraduates in a manner that will introduce them vigorously to its broad scope; to offer scientific and professional training to graduate students in the six core areas of psychology; to conduct cutting-edge research within and across the six core areas of psychology; and to provide consulting and administrative support services to the science and profession of Psychology.

PROGRAMME OUTCOME

- Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Students will understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.
- Students will respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.
- Students will understand and apply psychological principles to personal, social, and organizational issues.
- Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline.

Mathematics is now known as “Mother of all sciences”. Mathematics is the exact language for description, calculation, deduction, modeling and prediction – more a systematic way of thinking than a set of rules. Mathematical thinking is important for all members of the modern society as a habit of mind for its use in the workplace, business and finance and for personal decision-making. Mathematics is used throughout the world as an essential tool in many fields, including natural science, engineering, medicine, and the social sciences. Applied Mathematics, the branch of Mathematics concerned with application of Mathematical knowledge to other fields, inspires and makes use of new Mathematical discoveries and sometimes leads to the development of entirely new mathematical disciplines, such as Statistics and Game Theory. Learning Mathematics involves the profound assimilation of intellectual and aesthetic criteria as well as practically orientated ones. The very difficult in learning math’s makes it a personality- enhancing experience. The whole point of Mathematics education is to make ideas real for students, ideas that were not real for them before. The practical Importance of Mathematics lies in its ability to describe the real world of entirely new mathematical disciplines, such as Statistics and Game Theory.

VISION

Transform the students to be capable of mathematical thinking in all their aspects of life especially in getting jobs where knowledge of Mathematics is an inevitable part.

MISSION

- To develop problem solving skill, logical reasoning, precise thinking in the study of Mathematics that help students for better personality development.
- To achieve excellence in generating and propagating knowledge in Mathematics.
- To provide an environment where students can learn, become competent users and understand the use of mathematics and its applications in other discipline.

PROGRAMME OUTCOME

- Demonstrate analytical skills and extensive experience with the tactics of problem solving and logical thinking and it helps for career and graduate work.
- Ability to ask pertinent questions and perform suitable quantitative analysis.
- Get a relational understanding of mathematical concepts and concerned structures, and are able to follow the patterns involved.
- Get a relational understanding of mathematical concepts and concerned structures, and are able to follow the patterns involved.
- Enhancing students' overall development and to equip them with mathematical modeling abilities, problem solving skills, creative talent and power of communication necessary for various kinds of employment.

SPECIFIC OUTCOME

- Demonstrate a solid understanding of rigorous mathematical proof. Students will be able to write clear well-organized and logical mathematical arguments..
- An ability to identify, formulate, abstract, and solve mathematical problems that use tools from a variety of

mathematical areas, including

- algebra, analysis, probability, numerical analysis and differential equations.
- A deep understanding of at least one more area of specialization within mathematics or its applications.
- Think in a critical manner. Know when there is a need for information, to be able to identify, locate, evaluate, and effectively use that information for the issue or problem at hand. Formulate and develop mathematical arguments in a logical manner.
- Acquire good knowledge and understanding in advanced areas of mathematics and statistics, chosen by the student from the given courses.
- Understand, formulate and use quantitative models arising in social science, business and other contexts.

Physics, the ever-developing domain of science, is concerned with the study of nature and properties of matter and energy. The subject matter of physics takes account of mechanics, heat, light and other radiations, sound, electricity, magnetism, the structure of atom and so on. The word ‘physics’ has been originated from its Latin root *physica*, which implies ‘natural thing.’ in short, Physics tries to explicate HOW, WHY and WHAT of our world and the universe. The scope of physics is very extensive and infinite. It deals with not only the tiniest particles of atoms, but also the natural phenomena like the galaxy, the Milky Way, solar and lunar eclipses, and many more. It is indeed a fascinating fact that the world of physics always wonders the humanity with new discoveries. As an academic discipline, it throws up more questions than answers and opens new horizons of knowledge.

VISION

“Shape the next generation physicists to face and solve the greatest challenges of the future by igniting their young talented minds with Novel ideas in Physics”.

MISSION

- Impart quality education both in theoretical and experimental physics through effective teaching learning process.
- Develop a scientific temper and a sense of social commitment in students.
- Motivate students to pursue higher studies in Physics which will improve their career forecasts.
- Support the developmental activities of the College by encouraging the students to participate both in co-curricular and extracurricular activities.

PROGRAMME OUTCOME

- Understand the basic concepts of methodology of science and the fundamentals of mechanics, properties of matter and electrodynamics.
- Understand the theoretical basis of quantum mechanics, relativistic physics, nuclear physics, optics, spectroscopy, solid state physics, astrophysics, statistical physics, photonics and thermodynamics.
- Understand and apply the concepts of electronics in the designing of different analog and digital circuits.
- Understand the basics of computer programming and numerical analysis.
- Apply and verify theoretical concepts through laboratory experiments.

SPECIFIC OUTCOME

- To impart quality education in physics to students so as they become globally competitive physicist.
- To make the students to accept the challenges in physics and can effectively disseminate the physics knowledge to coming generations.
- To create strong interest in physics so as students can further develop themselves through self-study.
- To create a sense of ethical responsibilities among students.

Chemistry is the central science, uniting physical, life and applied sciences. It plays a vital role in our lives, from understanding matter and its interactions to developing new materials and medicines. Chemistry offers endless possibilities for innovation, research, and practical applications. The Undergraduate Course in Chemistry was established

YIMS in the year 2020 with Mathematics and Physics as subsidiary courses. It aims at providing a strong practical and theoretical grounding and skills to understand and deal with Chemistry. A Chemistry education nurtures analytical thinking and problem-solving skills, providing graduates with the ability to keenly observe, analyze, and interpret data. Such skills are highly valued in research, quality control, forensic science, pharmaceuticals, and numerous other industries. The interdisciplinary nature of chemistry empowers graduates to explore diverse professional paths. With the solid foundation in chemistry, individuals can delve into fields such as physics, biology, environmental science, medicine, and materials science. This versatility enables chemistry graduates to adapt and

VISION

The Chemistry department of Yuvakshetra aims at preparing the students to meet the needs of the changing world. Though started as an undergraduate department; we are planning to upgrade it to a PG and research department. We will strive to enhance our reputation through teaching and research projects and thereby attract best students and teachers to this institution.

MISSION

Learning Chemistry in this department is sure to ignite the passion for higher studies in chemistry and thereby opening opportunities in the fields of Industry, Research, Teaching, Laboratories, etc.

PROGRAMME OUTCOMES

- To understand basic facts and concepts in Chemistry.
- To apply the principles of Chemistry.
- To appreciate the achievements in Chemistry and to know the role of Chemistry in nature and in society.
- To familiarize with the emerging areas of Chemistry and their applications in various spheres of chemical sciences and to apprise the students of its relevance in future studies.
- To develop skills in the proper handling of instruments and chemicals.
- To develop an eco-friendly attitude by creating a sense of environmental awareness. To be conversant with the applications of Chemistry in day-to-day life.

YIMS Internal Quality Assurance Cell (IQAC)

1. Quality Sustenance and Quality Enhancement are the two key words reverberating in most institutions of higher learning today.

YIMS IQAC is a committee that is associated with NAAC which is an organization that assesses and accredits the institution.

2. NAAC insists that the institution should establish an Internal Quality Assurance Cell (IQAC) as a Post - Accreditation Quality Sustenance measure and should exercise long term objectives.
3. And in this context, NAAC pushes the institution to encompass a Proactive and Functional IQAC in its system.
4. IQAC conducts academic audit to ensure the quality of teaching and learning process in the College.

OBJECTIVES

The primary aim of IQAC is

1. To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.
2. To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

IQAC will facilitate / contribute

1. Ensure heightened level of clarity and focus in institutional functioning towards quality enhancement;
2. Ensure internalization of the quality culture;
3. Ensure enhancement and coordination among various activities of the institution and institutionalize all good practices;
4. Provide a sound basis for decision-making to improve institutional functioning;
5. Act as a dynamic system for quality changes in HEIs;
6. Build an organised methodology of documentation and internal communication.

IIRS / ISRO Outreach Programme

In the academic year 2020-21, YIMS has become network Institute of IIRS/ISRO outreach network, currently our institute is listed as on of the nodal center to conduct online courses offered by IIRS/ISRO Dehradun

Courses

1. Geospatial Inputs for enabling Master Plan Formulation
2. Remote Sensing and digital image analysis
3. Basis of RS,GIS,GNSS Understanding of coastal ocean processes using RS & Numerical Modelling
4. Remote Sensing & GIS Application

CERTIFICATE COURSE

In the academic year 2023-24, YIMS is conducting various **Certificate Courses** with an aim to help the students to develop their career competency in a single subject. This year **The PG Department of Commerce, section B. Com CA and PG Department of Psychology** have taken initiative to introduce Certificate Courses for all students of YIMS. These courses provide the students additional knowledge about Research Methodology for second years and Soft Skills for first years other than their subject knowledge.

All Certificate Courses have been scheduled by a coordinator with the help of various external resource persons in and outside India. The classes were conducted on Saturdays, Sundays and other public holidays or hours outside the proper curriculum.

Certificate Courses scheduled for the Academic Year 2023-2024

SI	Course Code	Title	Duration
1	YUCC11	Soft Skills for Executives	30 hrs
2	YUCC07	Indian Constitution & Human Value	30 hrs

FACILITIES

‘BODHI’– THE LIBRARY

The College library was established in the year 2005 with a view to preserve and disseminate knowledge to the academic communities. The library has vast collections of books, national-international journals, magazines, periodicals, dissertations, project reports etc. and also well equipped with online databases like N List- INFLIBNET DELNET, NDL,NPTEL, other e- resources etc. Library operations are

fully automated with Koha Integrated Library Management Software with automated Gate Register. Online web OPAC system is used for the searching of library resources. Books are being arranged according to the Dewey Decimal Classification System. Admission to the library, in general, is reserved only for students & Staff of YIMS. Library has two sections; the main section is for all students whereas the second section is exclusively for Hotel Management students.

GENERAL RULES

1. The library will remain opened from 8.30 AM to 5.00 PM on all working days.
2. Library members should mark their entry (In/Out) in the e-gate machine, which is kept at the entrance of the library.
3. Books, handbags and other personal belongings must be kept outside/property counter before entering the library.
4. Members are requested to observe strict silence in the library and its surroundings.
5. Online Public Access Catalogue (OPAC) system is followed in the library. Users can check the books availability in the catalogue.
6. Members should not alter the arrangement of books/journals in the racks section. If any item is taken out from the rack, it should be placed back correctly or left on the side of rack or table.
7. Members must handle the books/ journals with care; marking with pencil/pen, writing or highlighting, tearing the pages or mutilating the same in any other way will be viewed very seriously and a fine will be imposed.

REFERENCE BOOKS AND JOURNALS

1. Reference books and journals shall not be taken out of the library. These conversantly in the reading room.
2. Members who wish to read the reference books must enter their names, batch, course etc. in the library software and the book issued to them for reading inside the library.

3. For journals, a periodical usage register is kept in the library and write the details of the members and journals must be entered in the respective columns.

CIRCULATION SYSTEM

1. Books are issued to the students after verifying the ID cards.
The member must produce his/her ID card when a book is issued.

2. Books issued to the respective category of library are:

Category	No. of Books	Period
UG Students	3 books	14 days
PG Students	5 books	14 days
Teaching Staff	10 books	30 Days
Non-Teaching Staff	3 books	14 Days

3. Before leaving the library, borrowers must examine the books taken by them and if any mutilation or defect is found, it must be brought to the notice of the librarian. The borrowers will be responsible for any damage or mutilation detected thereafter.
4. The librarian may reduce the period of loan if the book is very much in demand.
5. Reissue of books to borrower maybe allowed maximum twice other than the first issue.
6. When a book is issued to a member, the due date for the return of the book will be noted in the due slip attached to the book.
7. Librarian may recall any book from any member at any time and the member must return the same immediately.
8. Books must be returned on or before the due date. If the day happen to be a holiday, the book must be returned on the very next working day. For retaining the book beyond the due date of return, library member will have to pay an overdue charge of Rs.5 per day.
9. If the books are lost, the borrower shall replace the book or deposit three times the price of the book in the library.
10. All batches of students are strictly advised to follow their allotted

library hours. "No Due Certificate" must be obtained from the Librarian to get the examination hall ticket and for other purposes like discontinuation certificate, T.C etc.

RULES AND GUIDELINES FOR LIBRARY DIGITAL INFORMATION AND INTERNET USE

1. Use of the YIMS Bodhi library's computers is purely for academic purposes and on a walk-in basis. Time limit on these computers is 30 minutes if another person is waiting.
2. All persons using the Internet must enter the details in the internet usage register kept in the library.
3. Personal software programme may not be installed on the library's computers. Changes may not be made to the setup or configuration of the software or hardware.
4. Internet Browsing, Downloading, Printing, scanning of information are fee-based services which complies with the Copyright Law and laws relating to the use of the Internet and other electronic media.
5. Misuse or abuse of the library's computers will result in suspension of privileges.
6. Allotment of computers is at the discretion of the library staff.

COMPUTER LAB

Yuvakshetra maintains a sophisticated computer lab. Individual access is ensured and the students get experience in the lab. The lab is open for the students even after the college hours. The computer terminals are connected with Local Area Network (LAN). High performance processors and latest authorized software's are made available. PG students can use their Laptops.

LAB RULES

1. Timing of Lab 9.30 am to 5.00 pm from Monday to Friday.
2. Entry to the lab is permitted only with Student Identity Card.
3. Strict silence should be maintained in the lab.
4. Students must make proper entries in the lab register before and after working in the lab.
5. Students are accompanied with the Mentors assigned for respective hour.
6. The systems must be handled carefully. Improper use of computers is punishable. Do not install any software in lab.

7. Ensured that the systems are properly shut down after use.

UG REGULATION 2014 ADMISSION ONWARDS

In compliance with the norms of University of Calicut, the students admitted to the under graduate programme have to undergo a Choice Based Credit Semester System [CUCBCSS], which includes four type of courses viz, common course, core courses, complementary courses and open courses. The duration of an under graduate programme shall be six semesters distributed in a period of three academic years. Each semester shall have a minimum of 90 working days inclusive of all examinations.

INDIRECT GRADING SYSTEM

1. Based on a 7 -point scale is used to evaluate the performance of students. Each course is evaluated by assigning marks with a letter grade (O, A+, A, B, C, D, E or F) to that course by the method of indirect grading.
2. An aggregate of E grade with 40 % marks (after external and internal put together) is required in each course for the pass and also for awarding a degree. Appearance for internal Assessment (IA) and End Semester Evaluation (ESE- external) are compulsory and no grade shall be awarded to a candidate if she/he is absent for IA/ESE or both. For a pass in each course 40% marks or E grade is necessary.
3. A student who fails to secure a minimum grade for a pass in course is permitted to write the examination along with the next batch.
4. After the successful completion of a semester, Semester Grade Point Average (SGPA) of a student in that semester is calculated using the formula given below. For the successful completion of a semester, a student should pass all courses. However, a student is permitted to move to the next semester irrespective of SGPA obtained.
5. SGPA of the student in that semester is calculated using the formula.

6. SGPA = Sum of the credit points of all courses in a semester Total credits in that semester.
7. The Cumulative Grade Point Average (CGPA) of the student is calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students.
8. CGPA can be calculated by the following formula: $CGPA = \frac{\text{Total credit points obtained in six semesters}}{\text{Total credits acquired}(120)}$.
9. SGPA and CGPA shall be rounded off to two decimal places.
10. CGPA determines the broad academic level of the student in a programme and is the index for ranking students (in terms of grade points).
11. An overall letter grade (Cumulative Grade) for the entire programme shall be awarded to a student depending on her/ his CGPA.
